LONG ISLAND CITY, L. I., April 25.—
It leaked out to-day that the General
Improvement Commission of this city
recently rejected 1,500 barrels of cement
which Contractor John C. Sheehan endeavored to use in the construction of
the Academy street sewer.
Commissioner William H. Williams
scid to-day that the rejected cement
was of different quality to that Mr.
Sheehan's contract called for.

The three remaining Gravesend election inspectors whose terms of thirty days each in Raymond Street Jail, Brooklyn, expired to-day were not re-leased until noon. The delay was due to the failure of their friends to pay \$250 fine for each until that time. The release of the men to-day ends the case of the short-term prisoners.
